REPUBLICAN CONGRESSIONAL DISTRICT CONVENTION.
FIRST DISTRICT.
A Republican Convention of the First Congressional District of the State of Wisconsin, composed of the counties of Kenosha, Racine, Waukegan, Walworth, and Rock, is hereby called to meet at the village of Elkhorn, in the county of Walworth, on Tuesday, the 13th day of August, 1878, at 12 o'clock noon of that day, to nominate a candidate for Congress, for the District, for the next ensuing two years. Each Senate and Assembly District will be entitled to two delegates to the Convention.
Dated July 10th, 1878.
JOHN R. BENNETT,
A. D. THOMAS,
ELIHU ENOS,
T. G. FISHER,
W. E. REED,
Committee.

THE STATE BOARD OF HEALTH AND DAMS.
The State Board of Health is now and has been for some time past investigating the Milford dam, located in Jefferson county. The general reader will be puzzled to know what authority the State Board of Health has to inquire into the history and construction of a mill-dam. Its business is to inquire into sunstrokes, summer-complaints, fevers, small-pox, and other ailments, and to gather reliable statistics regarding the fatality of the various diseases; but when it undertakes to assume the functions of a court, and usurp the province of a judicial tribunal, the public will decide that it is entering into a business with which it has not, and should not have, anything to do. But why is the State Board sitting as a court on the Milford dam? It is this: The claim is made by persons who are anxious to kill the manufacturing interests of that locality that the lands adjacent to the Crawford, on which the dam is located, is nearly all overflowed, and becomes marshy, especially this year on account of the frequent rain in the early part of the season, and consequent high water. It is also claimed that high water and the marshy lands have created a malarial, and consequently the public health is endangered. Hence with the pretext that there are sanitary reasons why the dam should be removed, the State Board of Health has been called to investigate the matter, and it is at work, and the enquiry has taken a strange course and a wide range. For instance, among the questions propounded by the Secretary of the Board, to Mr. Greene and son, owners of the dam, for answer, are the following: "I am directed to ask you for information in reference to the time and circumstances under which this dam was originally built, the authority for its original construction, and by which it has been subsequently raised, the total height of the present dam, the amount of land overflowed, and the extent to which private rights have been affected by such overflow?"

Great heavens! what in the name of common sense has the State Board of Health to do with the original building of the Milford dam, with the authority for its construction, and why or in what manner it was raised, or anything at all about it? The Board is to be a court of inquiry regarding the authority under which the dams of the State were made, it may next take up the Indiana Ford dam, and the dams at Janesville and Beloit, and inquire into those, and if this is the office of the Board, why not abolish the courts? We don't want both. We are not advised as to what the Board will do in the premises, but that is of little consequence. The question is by what authority does the State Board of Health make inquiries as to whether or not the mill-dams of the State were legally and properly built?

Over thirty years ago, the dam at Milford was made. Then the country was just settling up. There were no mills in that part of the State at that time. Mr. Greene, one of the pioneer millers of Wisconsin, constructed his dam, built his mill, and it proved a boon to the country. For years and years there were no complaints made about overflowing, though the overflow has been as great in other years as now. But when land is growing more valuable as time advances, there are a few selfish persons, who want to rob the mill-owners of their right, and crush the manufacturing interests of the country for the sake of obtaining a few acres of land. It is not so much a sanitary question with them—that is a pretext—but it is a question of acres and hay. If on the same excuse the Board can travel around the State and make a judicial inquiry into the construction of our dams, there will be no end to the trouble, and the existence of the mills and factories will hang on such a slender thread that they will hardly be worth owning. To give stability to such institutions, to make them at all profitable, to protect the interests of the towns and cities in which they are situated, and to encourage the building of mills, the power that moves them must not be held at the mercy of designing men. The very moment a stab is made at manufactures, that moment a blow is given to agriculture as well. One can not exist and flourish without the aid of the other. They are as inseparable as the Siamese-twins. Sever the cord which binds them and you destroy the life of both. The persons engaged in this warfare against the mill should bear this in mind, and the State Board of Health should likewise remember that there is a limit in these investigations beyond which they should not go.

Twenty-five years ago a similar complaint which is now being made against the Milford dam, was made against the water-power in this city. Medical testimony was taken, the matter went to the courts, and the parties defeated.

It is this: The claim is made by persons who are anxious to kill the manufacturing interests of that locality that the lands adjacent to the Crawford, on which the dam is located, is nearly all overflowed, and becomes marshy, especially this year on account of the frequent rain in the early part of the season, and consequent high water. It is also claimed that high water and the marshy lands have created a malarial, and consequently the public health is endangered. Hence with the pretext that there are sanitary reasons why the dam should be removed, the State Board of Health has been called to investigate the matter, and it is at work, and the enquiry has taken a strange course and a wide range. For instance, among the questions propounded by the Secretary of the Board, to Mr. Greene and son, owners of the dam, for answer, are the following: "I am directed to ask you for information in reference to the time and circumstances under which this dam was originally built, the authority for its original construction, and by which it has been subsequently raised, the total height of the present dam, the amount of land overflowed, and the extent to which private rights have been affected by such overflow?"

GROCERIES, &c.
VANKIRK, The Boss Grocer
No. 29 MAIN STREET, JANESVILLE, WIS.
His scales are true, his measures just. His goods are free from mold or rust. He buys for cash and not on trust. To undersell him others must steal their goods or surely bust.
Appreciating the fact that during the next 90 days the Farmers of Old Rock will require a large amount of groceries, I have made ample provision to supply them at wholesale retail at less prices than the same amount of goods can be bought at either in Chicago or Milwaukee markets.
My Stock is the Largest in the City
And replete with everything found in a First Class Grocery.
It Is a Fact
That I am selling Tea lower than any other house in the State at Retail.
A fine new Japan 50 cents usually sold at..... 75
A fine new Oolong 50 cents, usually sold at..... 80
A fine new Gunpowder 50 cents, usually sold at..... 90
Standard A Sugar..... 10
Granulated Sugar..... 11
Choco Coffee green or ground..... 10
Dried Peaches..... 10
Dried Blackberries..... 10
Dried Fruits..... 10
All other Groceries at corresponding prices.
Plug, Fine Cut, and Smoking Tobacco cheaper than ever offered before, as I have a Job Lot. I will not enumerate but will guarantee a saving of from 5 to 15 percent, to all buyers who will examine my stock and prices. Highest market price paid for choice Butter in Tubs, also fresh Eggs, and other produce. Remember the place, directly opposite McKee Bros., Janesville, Wis.
Yours, respectfully,
W. T. VANKIRK.

Don't Forget
That we keep the B. J. & Co., (some thing new)
The Best 50 cent New Crop Cracker,
The German Mille Granulated Biscuits,
The Matchless Plug Chewing Tobacco,
The Celebrated, Robbin Soap,
The A. from Cracked Wheat,
And that we pay Cash for
CHOICE BUTTER IN SPRUCE TUBS
Prices guaranteed as low as the low, and all goods warranted just as represented or no sale.
Yours respectfully,
G. W. HAWES,
my21dandw

RETURNED.

CHICAGO, July 27.—Prof. J. W. Stearns, for some ten years professor of Latin in the University of Chicago, but for the last four years President of the normal institution of the Argentine Republic, has just returned to this city, having taken an extended European tour with his family on his way home. He has resigned his position in South America, and already has two propositions open to him, one for a professorship in the University of Chicago, and the other to take the presidency of the State Normal School of Wisconsin, located at Whitewater. He will probably accept the latter at a salary of \$2,500 per year.

"THE BLIND MAN ELOQUENT."
Return of the Rev. Dr. Milburn. Promised Lecture on His Experiences.

From the New York Herald.
Rev. Dr. Milburn, so well known as "the Blind Man Eloquent," returned from Europe by the Baltic on Thursday last, having been absent two years and three months. During that time Dr. Milburn travelled in Great Britain and Ireland and lectured more than six hundred times. He became acquainted during his travels with perhaps a larger number of people and visited a larger number of homes than any other American before him. Among the particular friends whom he visited and of whom he saw much was Thomas Carlyle. Dr. Milburn will probably have ready for next season lectures on "What a Blind Man Saw in Ireland, in Scotland, as well as in England," and on other subjects, embodying results of his observations, and travels. It will be remembered that the Doctor was chaplain to the Congress of the United States in 1845 and again in 1853, and was the youngest man who ever uttered a sentence in either House of Congress. Perhaps there is no one man in Washington now who has spoken on an average every day and travelled about a million miles. Notwithstanding that he lost the sight of one eye entirely and that of the other in a great measure when he was only five years of age, few men have more successfully overcome difficulties in the acquisition of knowledge, and he brings to the lecture platform varied learning and glowing thought. His new lecture promises to be rich in experiences of Old World ways.

SUREST TRANQUILIZER OF THE NERVES.
The surest tranquilizer of the nerves is a medicine which remedies their super-sensitiveness by invigorating them. Over-tension of the nerves always weakens them. What they need, then, is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquillity of the nerves by coloring them with the vigor requisite to without being jarred or disturbed unhealthfully, the ordinary impressions produced through the media of sight, hearing and reflection. Nay, it does more than this,—it enables them to sustain a degree of tension from mental application which they would be totally unable to endure without its assistance. Such at least is the irresistible conclusion to be drawn from the testimony of clergy and professional men, literateurs, business men and others who have tested the fortifying and reparative influence of this celebrated tonic and nerve.

YERBA BUENA.
Samples GIVEN AWAY. The Agents of the celebrated California Remedy, the Yerba Buena Bitters, are in the city, giving away samples of their valuable Remedy on the street every evening, that all may try it and be convinced of its curative powers.
YERBA BUENA Bitters cures Bileuses, nerves.
To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great Remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. JOSEPH T. INMAN, Station D, Bible House New York City. sept1dandw

IMPORTANT NOTICE!

threshing the straw will be there without additional cost.
In this connection it is proper to mention the worth of chaff, and the usual carelessness of preserving it. Improved machinery makes the loss from this source less than it formerly was, but still the loss is considerable under the most favorable of circumstances, and in many cases the straw carrier is not at hand. Suffice it to say that the chaff is very valuable, and that stock delight to pick it over, and is profited by it. A little attention to the prevention of these little wastes will aggregate a considerable profit in a few years.

BRIEFLETS.

—New moon.
—Charley Potter's condition was a little more favorable to-day.
—The housewives are at the can-can business. Fruit season, you know.
—Constable Comstock is in the far north, after the thieves who robbed Dunn of \$98.
—The militia now begin to ask, where are those 5,000 troops who were on their way from Illinois?

—Mr. Cyrus Miner started yesterday for Boston and New York, to purchase goods for his boot and shoe house.

—Miss Ella Peterson gave a small but exceedingly pleasant reception to some of her young friends last evening.

—Sheriff Colley has returned from Wau-pun, whither he took young Boland for a four years' stay in the Penitentiary.

—The Janesville Guards are to be mustered in by Lieutenant H. A. Smith, one week from Monday night. The arms will soon after be received.

—The new lodge of Ancient Order United Workmen, have leased a hall in Holdrege's block, which they will at once fit up nicely and attractively.

—Prof. J. W. Stearns, who has been tendered the presidency of the Whitewater Normal School, is a brother of Charles A. Stearns, the telegraph operator in this city.

—Hyatt H. Graves, Esq., who has been finishing his law studies with Winans & McElroy, of this city, has been admitted to the bar to practice as an attorney at law in the State of Wisconsin.

—Ben Groves, who is undergoing a musical training in Chicago, arrived last night and will spend about a week in this city. He will sing at the Baptist church to-morrow evening.

—Ex-Alderman Moon has a veteran cat who has reached the prime old age of 22 years, and is still able to wage a noble warfare when the possession of a line fence is disputed by a neighbor's cat.

—Mr. J. C. Metcalf has returned from his Eastern trip. The rest of the party who accompanied him, are still visiting in the East. Mr. Metcalf seems to have profited in health greatly by his trip.

—Mrs. G. P. Griswold pens in a private letter a vivid account of her trip across the briny. We are permitted to publish a portion of it which will prove of great interest to her many friends in this city.

—Will Jero, a former Janesville boy, who has been agent for the Michigan Railroad, at Grand Rapids, Michigan, for several years, and who is now traveling agent of the same road, is in the city visiting friends.

—Rev. J. W. Sanders has written an exceedingly interesting letter to the Presbyterian Sunday School, which we publish to-day. Those who don't belong to the Sunday school are not debarred from enjoying it.

—Next Monday afternoon there will probably be a lively demand for smoked glass. The sun has killed the whole country for a total eclipse at that time. Perhaps we can see it, and perhaps we can't, but it will take place all the same.

—Since April 1877, there have been sent up from Hook county to the State Penitentiary 27 convicts. The crooked ones will soon learn to shun a county, where arrest and conviction so speedily and surely follow upon their commission of a crime.

—The Knights of Honor are to use for their meetings the hall occupied by the Temple of Honor, in Mitchell's block, the Temple having decided to sublet it to the Knights. This will not interfere with the meetings of the Temple, which will be held as usual.

—Mr. J. P. Stewart, of Waukegan, had about fifty men and boys to hear him talk, last evening, at Lippin's hall, concerning greenbacks and the labor question. The talk was the same in substance as hundreds of other stump speeches made by the advocates of Greenbackism. Mr. Stewart is, however, a more pleasing speaker than most of those who canvass the country in this cause.

—The Chicago Clippers failed to put in an appearance yesterday. It was a great disappointment to the Mutuals, who were confident of giving them a lively tussle. The Chicago boys had not even the courtesy to send any word as to their failure to appear as promised, but probably their defeat at Rockford rattled them so badly that they forgot all about their being any such thing as courtesy or honor among base-ballists.

—There was a meeting of the veterans last evening to consider the advisability of organizing a militia company. About forty were present, but information being received that the State quota was full, and that if they organized they could not be sworn in as regular militia, they concluded to abandon the scheme for the present at least, as it would require too large a private outfit for arms and equipments. The Janesville Guards will therefore have the whole field to themselves for the present.

THE WEATHER.

The thermometer at 7 o'clock this morning stood at 65 degrees above, and at 2 o'clock at 82 degrees above. Clear.

The indications to-day are, for the upper lake region, upper Mississippi and lower Missouri valleys, clear or partly cloudy weather, light variable winds, mostly stationary temperature and higher pressure.

SPORTING NOTES.

The Providence club defeated the Milwaukee yesterday by 4 to 1. The Milwaukee found Ward's pitching hard to hit, and only made four base-hits, while Providence scored ten.

The Cleveland races were postponed yesterday on account of rain.

The yacht race on Geneva Lake, and the race on Lake Michigan, were postponed yesterday. The latter was postponed until 3 o'clock this afternoon.

A lodge of the Ancient Order of United Workmen, was organized in this city last night, and the charter will be kept open

for charter members for three or four days. This is a benevolent organization, having for its cornerstone a \$2,000 insurance for each of its members. It has some different features from the Masonic and Odd Fellows' insurance, the chief of which is that every member of the order is a member of the insurance, the business all being done by Lodges. The qualifications for membership require that the candidate shall be over 21, and under 50 years of age, and of sound bodily health. Every one desiring to know more about the order, can call at Mr. Roberts' drug store, where will be found the Deputy who will give all needed information.

WHERE IS HE?

Sudden and Strange Disappearance of E. C. Davidson.

The Great Grain Firm, of which He is a Member, Probably a Myth.

About two weeks ago a slick-looking gentleman made his appearance in Janesville, and registered his name at the Edwards house as "E. C. Davidson, of Milwaukee." He represented himself as being connected with Hall, Davidson & Co., of Milwaukee, and with Williams, Mills & Co., of Chicago, and expressed his intention of entering into the grain and general merchandise business here. He talked as if he was a man of ample means, and seemed to be enthusiastic in his planning, being confident that he could work up a business which would utterly demoralize the "grain ring" in Janesville. He talked rather large for a man carrying such a small amount of baggage, and in personal appearance did not impress one strongly with his business-like qualities. He wore a clerical-like suit of black, was smooth-shaven, and in his street promenades decked his fingers in ancient dials of a very sombre hue. In fact he was rather peculiar looking, and yet he was a glib talker, and seemed to understand what he was about. He hastened to hunt up the newspaper men and to herd through the columns of the press the fact that a new enterprise of more than ordinary interest was to be inaugurated by more than ordinary men. Last Monday he hunted up Charles B. Conrad and inquired about the store which he owns next to the one he occupies. He was informed that he could rent the same at \$20 a month, and it would be fitted up in shape to suit him, provided he put up enough wealth to show his responsibility, as he was a stranger. Davidson said he would see him again about it Wednesday morning.

In the meantime he hunted among the elevators for one which he could rent, and finally came to the conclusion that he would buy some land of the Milwaukee & St. Paul Railway Company and build a warehouse, and then he would be independent of "the grain ring," which he seemed to feel rather bitter about.

Last Tuesday he asked Mr. Edwards, his landlord, to step over to the bank with him as he wanted to get a draft cashed. Mr. Edwards accordingly introduced him at the First National Bank, and Davidson said to have cashed a check for \$200. Wednesday morning he met Conrad as agreed, and paid him \$40 in cash for two months' rent in advance, and the work of fitting up the store was accordingly entered upon.

Last evening the report began to spread about the city that Davidson had skipped out of town, having managed to defraud the bank out of \$200, and having left sundry bills behind him unpaid. Whatever truth or falsity there may be in this report the circumstances as far as known are rather against Davidson, and there seems to be a general opinion that he has been playing sharp.

Mr. Edwards, where he has been stopping, says he paid his first week's board, but that he has not so far heard from him since yesterday noon. He was around the hotel about noon-time, but did not go in to get his dinner, and has not reported since. He was with him when he got the money at the bank, but did not touch for him, but simply told the bank clerk what little he knew of him. Davidson left behind him a cheap enameled cloth vase, which contained several dirty handkerchiefs, a paper collar bag, a shoe brush, a railway map, and a checkered shirt—not a very extensive wardrobe for a man of such means and position as he purported to have.

The folks at the bank had learned that the firm of Hall, Davidson & Co., of Milwaukee, and of Williams, Mills & Co., of Chicago, were probably myths, as they were not known to the commercial agencies. They say that Davidson presented a check, drawn by Hall, Davidson & Co., on a Milwaukee bank, and that the bank on which it was drawn denies having any such account or knowing any such firm. They do not admit, however, that they lost any money by Davidson, and say that he probably tried a game, but deny that he succeeded.

It is certain, however, that Davidson left behind an unpaid hotel bill, and some printing bills, and if he does not turn up at an early date, the present unfavorable opinion of him will be doubly confirmed.

Davidson had hired Charlie Hollister to act as his "in-doors" man, but Charlie is ignorant of the whereabouts of his new employer as any one else, and it looks as though the promised good wages would not be forthcoming.

It is certain, however, that Davidson left behind an unpaid hotel bill, and some printing bills, and if he does not turn up at an early date, the present unfavorable opinion of him will be doubly confirmed.

SUNDAY'S PROGRAMME.

The Doings at the Churches To-Morrow.—Various Subjects to be Discussed by the Preachers.

The following notices of church services have been handed in for publication:

Congregational Church.—Corner of Jackson and Dodge streets. Rev. T. P. Sawin, Pastor. Services 10:30 A. M. and 7:30 P. M. Services at this church both morning and evening. Subject of the pastor's discourse in the morning—"Reserved Forces." Evening theme—"Faithfulness." Sunday school at 12 M. A cordial invitation is extended to all. This will be the last service before vacation. The church will be closing during the month of August.

Baptist Church.—Corner of Jackson and Pleasant streets. Rev. F. L. Chapell, Pastor. Services 10:30 A. M. and 7:30 P. M. Sunday school at 12 M. Prayer-meetings on Thurs day evenings at 8:00 o'clock.

The pastor will preach in the morning on "The Difference between Liberalism and Orthodoxy," and in the evening on "Giants and Grasshoppers."

In the evening the musical portion of the service will be particularly interesting, there being besides the regular choir Miss Emma Baker and Mr. Ben Grove, of Chicago, who will sing, and Prof. Bischoff, who will preside at the organ.

All Souls Church.—Corner of Court and Bluff streets. Rev. J. L. Jones, Pastor. Sunday services at 10:30 A. M. and 7:30 P. M.

The pastor being absent there will be no services at this church to-morrow.

Christ Church.—On Court street. Rev. A. L. Rorer, Rector. Services at 10:30 A. M. and 7:30 P. M.

The rector will preach in the morning on "The Faith of Joseph." Evening prayer without sermon at 7 o'clock.

Presbyterian Church.—On Jackson street. Rev. J. W. Sanders, Pastor. Services 10:30 A. M. and 7:30 P. M.

Owing to the absence of the pastor, there will be no services at this church to-morrow.

Court Street M. E. Church.—Corner of Main and Court streets. Rev. L. N. Wadsworth, Pastor. Services at 10:30 A. M. and 7:30 P. M.

There will be regular services held Sabbath morning. No services in the evening.

Y. M. C. A.—Meeting 9 o'clock every morning (except Sabbath) 7:30 Wednesday evening, 8:30 Saturday afternoon. Address: 100 N. Main street.

Trinity Church.—Corner of Jackson and Bluff streets. Rev. Thomas W. MacLean, Rector. Services, Holy Communion at 8 o'clock; second service at 10:30 A. M. and evening service at 7:30 P. M. On the first Sunday in the month no 8 o'clock service.

St. Patrick's Church.—Corner of Holmes and Cherry streets. Robert J. James, Pastor. Services at 8:00 A. M., 10:30 A. M. and Vespers at 3:00 P. M.

St. Francis Church.—Catholics.—Corner of Wisconsin and North First streets. Rev. J. W. McNich, Pastor. Services at 8 and 10:30 A. M. Sunday School at 9:30 A. M. Vespers at 5 P. M.

African Methodist Episcopal Church.—Services in Young Men's Association Rooms, Methodist Episcopal Church.—Corner of Jackson and Court streets. Rev. Thos. C. Gibson, Pastor. Services at 10:30 A. M. and 7:30 P. M. Sunday school, at 12 M. Prayer-meetings Tuesday and Thursday evenings.

WHY IS THIS THIS?

To the Editor.

It was mentioned some time ago in the columns of the Gazette that a nine was about to organize in this city under the name of the Mutuals, and that they had purchased their suits, etc. The boys would now like to know what right if any, the organization known as the Accuties, have to adopt their name and proceed to play under it, without the consent of the former club. It may also be stated here that they have several times challenged the Accuties to a friendly contest for the superiority, and they have as many times refused, the Accuties giving unsatisfactory reasons for so doing.

O. N. DECK.

A PASTOR'S VACATION.

WOODLAND TERRACE, 1 WEST PHILADELPHIA, JULY 27, 1918.

To the Sabbath School, Presbyterian Church, Janesville:

"The longest way round is the shortest way home," is an old saying, the strange truth of which we have just proved. For although our way home has led us around through every New England State, and has taken ten times as long as usual to travel, yet so delightful and eventful was every part, that it occurs to us that this longest way was after all the nearest cut across lots to our father's house.

So far everything has been just as we dreamed it might be. The sea was in its good behavior, and the mountains as though they were expecting us. As we had timed our journey for the full moon, even that wayward and fickle body seemed to appreciate our consideration, and did not fail to express her stately delight.

So far our summer vacation has been like a mid-summer night's dream, for pleasing fancies, for rapid visions, for new and quiet experiences, for strange delights. It has been one constant shifting scenes—a sort of happy dissolving view, wherein the West gave way to the East, and the North and the South kept not back; whatever each point had of special interest, that was given without place change. All the hidden beauties of a place came out and stood waiting for our review. So that if they have done this honor to us, we have tried to show our admiration, and to hold ourselves ready at any hour to pay respect and carry back an unfading recollection. For two weeks and more it has been this sort of "give and take," and yet the experiences hold out.

First there was that morning drive over to Alton in company with Mr. Bennett behind his swift horse; then the real jolly holiday party we met at the station, seemed to strike the key note of enjoyment which has not ceased nor made a moment's discord since. A short ride comparatively to Chicago, gave us the motion of the cars needed to prepare us for days of jaunting, "and then our story's begun."

Fourth of July found us reversing the course of "the Star of Empire," but following the patriotic bent towards Philadelphia, as though the old State House there was drawing us on that special day. Before crossing the Alleghenies, a terrible thunder storm broke over us without hurt; this washed the mountain face and put every peak in purer atmosphere, so that never, out of scores and scores of times, did the view from Cresson to Altoona seem so lovely. All along the bright Juniata the lights of departing day were as they never appeared before.

I find that already a check must be made in the use of superlatives or they will not hold out, or come in fully further on where they will be needed.

As it was, the east blended into the west, prairie into highland, Chicago into New York, the sleeping car into a sound steam-

er, and at last, warm western affection into very first realization of true New England hospitality.

Friday morning I met the "elect lady whom I love" in New York, and that evening took the steamer Rhode Island for a short voyage around New York harbor, under the Brooklyn bridge, up the East river, into the Sound, where we sailed under the moon till past midnight. We were made by 7 o'clock in the morning, and soon we were whirled back over part of our route to Forest Hills, to a beautiful home, where for five days that same dear old Yankee kindness made every waking hour a season of delight.

When Thursday came we parted as if from life long dear ones, and took up our march with our faces set for the great granite hills of New Hampshire. Stopping a day at Portsmouth to visit Isle of Shoals, those nine bleak hummocks that seem to be out-lying vied to challenge the first approach of ocean storm or breeze. Celia Thaxter's famous description of those isles is not overdrawn; a hour's experience there explains the witchery so beautifully foretold. There seems nothing at first sight but bare rocks, bold headlines, sky wave and sea motion, but these change their moods often that the picture is fastened. It was whimsical to note our feelings leaving those wild shores as compared with the disappointed impressions we held as we first went up the pier.

That same sunset as we drew near to North Conway, as the cars whirled from one tannet to another, the mountains flashed full upon us like some grandeur-lust from out of the departing day. It was "Inspiration point," or should so be called. Almost all the peaks held themselves up to the heavens, that every shade of light might display their outlines and massive proportions. When North Conway was reached, and a neat old-fashioned New Hampshire tavern held us as guests, we voted the day just ended one of those full days wherein more would have been impossible or a surfeit.

The Isle of Shoals, and a near though bird's eye grasp of three ranges of mountains, and that at sunset, made our expressions of praise and thanksgiving that night to have an earnestness one ought always to have when mercuries are showered. In the morning we found Fort Keegan just at hand, symmetrical and stately. To the north, and seemingly not far away, the White Mountains stood clear, shining, and inviting our approach.

We have now gone up and over and around and through these granite hills, but give to North Conway the award of being the best point of view for the whole of being the fittest place to prepare for doing the mountains. One needs to dwell for a season at the foothills and let these massive peaks by day and their gaunt outlines in the twilight just absorb him. From Thursday until Monday we took in not only mountain air but impalpable sense of uplift which abides long after the descent is made to the plains again. For our ride on top of the stage, to the Glen House, we were in part made ready, but not entirely for while distance lends enchantment, as we had been experiencing, nearness does not dissolve, but intensifies the ecstasy. Oh how merly we bowed along, half listening to the bear stories of our fat stage driver, now nudging one another to take in this vista or yonder car, until we made twelve miles, which we wished might have been drawn out for all day. Suddenly we whirled down through a deep wood around the curve and up to the broad piazzas of our hotel. Turning from the obsequious porter to the uplifted heights above us, was like turning from the common place to the divine, from things earthly to things heavenly. The picture from the portico of the Glen is peculiar to itself of all the manifold phases this region affords. Right up from the little meadow in front, the Mounts Washington and Jefferson rear their majestic heads whilst the deep glade between is sombre enough for every effect. Of course the heights allured us, and not long, for hardly waiting until dinner was over up we clambered, eight long and interminable miles we footed it, reaching the summit in about four hours or so recompensed by the views opened up at every turn, by the consciousness of the victory achieved, by the glorious sunset, (this is the first time "glorious" has come in) and also by the interesting group of people we met indoors of the Summit House. There we moved for an evening in the highest circles of New England, 9,900 and odd feet above the others. When the big moon arose we caught the sheen upon the ocean away off sixty miles or more, and then awaited in sleep the chances of the most doubtful of all lotteries, sunrise from this height. We drew almost a blank, and for comfort would have preferred a blanket excuse a pun before breakfast.

Down the steep mountain railroad at a snail's pace, to the foot, thence to Bethlehem, whilst Mrs. Sanderson skirted down the Crawford Notch and back.

Wednesday another hilarious stage-top ride to the Profile house. Again we found a storm to precede us and clear up the haze from the valley, mist from the hills, dust from the foliage, and discomfort from around about. Again we had a swift whirl down the steep descent, for these stage drivers like to make up for whatever plodding of the journey by a thrilling, exciting windup, so crack went the whip, and off we full run, swing, chain and pole horses; under the wet boughs, past glistening glimpses of water falls, around sharp turns, spanging along level stretches, halting not for any grade, until in an instant we were curved in and around up to the hotel steps.

Surely no indications of any hot wave or heated term in that broad, blazing fire log in the hall and parlor, but on the contrary every hint of cool, if not cold days here, in this deep dell under the calm gaze of the Old Man of the Mountain.

Here I must stop, not only because of the length of this, but because after this place the interest must cease. Truly here is the climax. No matter what else awaits, let it be elsewhere told. For one entire afternoon despite the frequent showers, and for two hours before breakfast, that face held us. Away up at the farthest end

of the crag, looking out from eternity into the coming centuries, eighty feet of facial granite, carved and placed there by the Author and Finisher of nature's revelation, is the Old Man of the Mountain, older than the Sphinx, created before Tadmor of the desert, before Abraham was, finer in outline than any gigantic carving of Ours in the sand covered temples of the Nile. Unmoved, unchanged, always the same, since time was, and shall be till these hills fall, and these rocks cower from the presence of God. It seems to speak nothing, it suggested nothing, our souls were not edified, but the vast uncounted ages which seem to have left this face as their refuge, awed us into utter silence, and almost holy thoughtfulness.

Truly, when one forgets the living and eternal God, and turns about for an object of worship, rather than dumb idols, or money, or self, for a god, let this face, which no doubt has often received adoration, be taken for such service. The fire worshipping eastern with his sun god would here meet with his rival, and his god with this heavenly face for a peer.

In the early morning while yet the sun was struggling along the higher mountains for the first time, the clouds from the valley eddied up towards the old man, and make incense as it were before him.

But soon we were called away, and as we turned for the last admiring and almost adoring look, one who shared every emotion of this rapture with me, lifted her hand and said, "Good bye, Old Man of the Mountain! If I do not see your face again, I hope to see your Maker." And instantly I was called upward from what was an actual tendency to worship "the seen" to that holier sense and consciousness of "the Unseen," even Him whose hand had shaped and bade that stern old profile take its ancient place.

Soon we were ready to depart; then followed our last stage ride, and we bade a long farewell to the bright and beautiful scenes behind us, and in an hour struck the hot wave from the west, making what otherwise would have been an entrancing ride down the length of the Connecticut valley, a heated pilgrimage. At Wells River we parted, one to Quebec, and the other to Philadelphia, and the dear faces in the old home. Thus ended the first lesson.

From your affectionate friend and pastor,

JOS. W. SANDERSON.

Try Them.

Housewives who use Dr. Price's Special Flavoring Extract avoid disappointment often experienced by the use of the ordinary flavoring extracts. The personal attention of Steele & Price in superintending their laboratory, makes Dr. Price's Extracts so reliable.

CITY NOTICES.

An Undeniable Truth.

You deserve to suffer, and if you lead a miserable, unsatisfactory life in this beautiful world, it is entirely your own fault, and there is only one excuse for you—your unreasonable prejudice and skepticism, which has killed thousands. Personal knowledge and common sense reasoning, will soon show you that Green's Anion Flower will cure you of Liver Complaint, or Dyspepsia, with all its miserable effects, such as sick headache, palpitation of the heart, sour stomach, habitual constipation, dizziness of the head, nervous prostration, low spirits, etc. Its sales now reach every town on the Western Continent and not a Druggist but will tell you of its wonderful cures. You can buy a Sample Bottle for 10 cents. Three doses will relieve you. decided-wooden

VERBA BUENA Bitters cures Constipation. jy25tf

Beyond the Reach of Human Skill.

Is the power to restore the hair to bald heads when the bulbs at the roots are destroyed by age or disease; but there are doubtless many persons becoming bald, whose hair by careful attention might be restored to its original luxuriance and beauty. Parker's Hair Balsam is an elegant preparation, designed to meet the public want for a harmless hair dressing and restorative. It acts like magic, commencing at the very roots, removes dandruff and all humors from the scalp, and never fails to restore gray or faded hair to the original color, and the soft, rich and glossy appearance of youth. By its occasional use falling of the hair is immediately checked, and a luxuriant and beautiful growth of young hair induced. The exquisite perfume and the purity of its composition are highly appreciated, and as it is not a dye and does not stain the skin or clothing, it is a growing favorite of the toilet table everywhere. Buy a bottle from your druggist, A. J. Robert's, Janesville, Wis., and test its merits. jy25awewillsep23

"**Dobbins' Electric Soap.**" Having obtained the agency of the celebrated Soap for Janesville and vicinity, I append the opinion of some of our best people to its merits. I have washed with Dobbins' Electric Soap many times, and pronounce it the best soap I have ever used. The rapidity and ease with which it enables one to do one's washing is really surprising. Putting the clothes is entirely unnecessary and no rubbing is needed. I won't not be without it. NAZIE KASTORON, out it.

I have no hesitation in saying that no housekeeper should be without Dobbins' Electric Soap. I can heartily recommend it, it is a charm in the wash tub. ELIZA P. LELAND.

As a time, labor and money saving article, I take pleasure in recommending Dobbins' Electric Soap to my neighbors. It promises wonders and does all it promises. Many thanks to the inventor. I take pleasure in calling attention to the testimonials, as we have just made arrangements with the manufacturers in Philadelphia, so that we can supply the trade at their lowest Philadelphia price. GEORGE W. HAWES, Sole Agent.
